

INDIE PICK

What's HOT, Delhi Times. 18 July 2008

LASHKAR, by Mukul Deva

Harper Collins / Rs 195

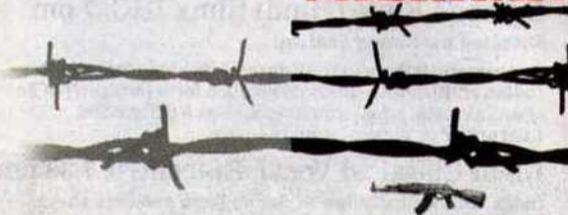

Mukul uses his inside knowledge of the armed forces to create a fictional account of Establishment 22, India's answer to the British special force SAS. A terrorist strike provides the backdrop for retaliatory action by 22 against the source of terror—the Lashkar, its camps and its main funder. Exciting, in a MacLeanish manner, with some action, some introspection, some retrospection and the perennial combat of good and evil, where life is mostly black and white.

HOT Tip: A racy read, though not layered. A boys' delight like the *Biggles* series of yore.

"This is Tom Clancy-style stuff. Lashkar works- and not just for its blistering pace!" *The Indian Express*
